Introduction

Roomba TV is the world's largest and most reliable IPTV/OTT streaming platform, delivering nearly 3000 TB in streaming content per month to thousands of customers around the globe.

A simple user interface and an extensive collection of HD channels offer us the most satisfactory IPTV service in the USA, Canada, Latin America, and the UK. We broadcast thousands of live channels to stream premium HD content. Our existing customers praise the quality of the content we deliver through our IPTV service.

Roomba TV lets you watch TV anywhere. We all know how annoying it could be when you want to download an app, software, or program and you can't seem to find it on your Amazon firestick options. Hence, we made this guide to assist you in downloading and navigating through Roomba TV for Amazon Fire TV Stick with ease.

Downloading

Installing apps that are not available in the Amazon Appstore, also known as sideloading apps, on Amazon Fire TV devices varies slightly depending on the model you are using. This guide covers how to sideload the Roomba TV APK on all models, including Fire TV boxes, Firestick, Fire TV Cubes, Fire TV Edition televisions, the new 2020 Fire TV Stick 3, and Fire TV Stick Lite.

Here are quick and easy steps to Download and Install Roomba TV on your Amazon Fire TV stick.

STEP 1: Install Downloader App

Search for and install the Downloader App from the Amazon Appstore. Once the app is installed, please do **NOT** open it yet.

STEP 2: Go to Developer Options in Settings. Now that Downloader is installed, and you haven't launched it yet, you need to change a setting on your device.

If you have any Fire TV box, Fire TV Stick, Fire TV Stick 4K, or Fire TV Cube, navigate to Settings > My Fire TV > Developer Options

	MY FIRE TV	
	About	
	Developer options	Enable ADB connections over the network.
	Legal & Compliance	
My Fire TV	Sleep	
	Restart	
	Reset to Factory Defaults	

If you have any Fire TV Edition television, navigate to Settings > Device & Software > Developer Options

	DEVICE & SOFTWARE	
	About	
	Developer options	Enable ADB connections over the network.
	Legal & Compliance	
Device & Software	Sleep	
	Restart	
	Reset to Factory Defaults	

STEP 3: Enable Apps from Unknown Sources

If you have a Fire TV Cube 2nd Gen, Fire TV Stick 3rd Gen, Fire TV Stick Lite, Fire TV Edition televisions by Grundig & JVC, or 2020 Fire TV Edition televisions by Toshiba & Insignia, select the *'Install unknown apps* option,' scroll to *Downloader*, and change its setting to "ON".

If you have a Fire OS 5 or Fire OS 6 device, including all other devices, select *Apps from Unknown Sources* to change the setting to *ON*.

	DEVELOPER OPTIONS	
이 있는 가슴 옷을 보니?	ADB debugging OFF	
•	Apps from Unknown Sources on	Allow installation of applications that are not from Applications.
		option ON only if you install apps from reliable sources as a developer.
My Fire TV		

STEP 4: Open Downloader and Grant Storage Permission

Now, go to your list of apps on the Fire TV Home screen and open the Downloader app. If you have a Fire OS 6 or Fire OS 7 device, you will be asked to allow Downloader access to files on your device as soon as you launch the app. Select *Allow*.

Home	Downloader 보 by 🛆 AFT Vnews.com
	Quick Start Guide want to download:
	Home: Download files by entering URL on Home screen Browser: Load and browse webpages. Files: Open and delete downloaded files. Foregrites: Save and manage frequently visited UPL c
	 • Ravones, save and manage nequently visited ordes. • Settings: Set browser and downloading options. • Help: Detailed user manual for all features & options.
	w Downloader to access photos,
You ca	n change this later in Settings > Applications > Manage ed Applications > Downloader > Permissions.

STEP 5: Enter URL and Download the Roomba TV APK file

Enter the Roomba TV URL to sideload the Roomba TV APK and select the *Go* button. <u>https://my.roomba.tv</u> Because the URL is direct to the APK file, the file will begin to download. Use the circular UP/DOWN/LEFT/RIGHT buttons to find or enter the download link and click it by using the center select button on your remote.

https://www.roomba.tv/downloads/android/RoombaTV-2.2.3.apk Go \equiv
Status
File download progress: 35.7 MB/88.4 MB
Cancel

STEP 6: Install Roomba TV APK

After the APK file downloads, you will be asked to install the app. Press Down and Right on the remote a few times until the *Install* button is highlighted. Press the center Select button on the remote to begin installing the app and select *Done* when it's finished installing.

STEP 7: Open the Sideloaded Roomba TV App

You're done and you can now launch the RoombaTV app. To do so, go to your list of apps by pressing the home button on your remote control and selecting the *Apps* option. You will see the Roomba app, go ahead and select it.

The two options that you can set before logging in to the platform are as follows:

- Connect VPN
- Refresh DNS

OPTIONAL - Connect VPN (Virtual Private Network)

Our VPN option is a great choice when for example your ISP is preventing you to watch IPTV. Using this option will allow you establish an encrypted connection from your internet to our Platform bypassing ISP restrictions. We don't recommend using a VPN connection if you don't face connectivity issues to our platform. **If you don't face any connectivity issues, please go to Page 16**.

1. Tap the following button to connect to a VPN.

- 2. Tap the (+) button to add a new profile.
- 3. There are two 2 ways to add your VPN certificate file:

٠URL

Use this option if you would like to add the certificate file via inserting your certificate URL. Tap the **IMPORT** button once done.

• FILE

Use this option if you would like to locate your certificate file from the internal storage of your mobile device. Tap the **BROWSE** button to locate the file.

OPTIONAL - Refresh DNS (Domain Name System)

Clearing your DNS will help you to avoid any problems with internet connectivity and security.

You can use this option if the IP addresses or other cached information is causing trouble for logging in, as well as refreshing it so that everything works smoothly again!

- 1. Tap the following button to **refresh DNS**.
 - 2. Enter log-in details by typing in your username and password details provided to you after the purchase.

3. **Login**

4. After you have registered and created an account on our website, you are now ready to use it for the first time.

Immediately after login, a white screen appears saying 'Please wait, while we are getting things ready for the first time' and 'Downloading Channels, Movies and Series'.

After the channels, movies and series have downloaded, then the TV Guide also downloads.

After that it takes you directly to the home screen.

Home Screen

Options available for your perusal and entertainment include Live TV, movies, series, catch-up, multi-screen, and settings.

The application consists of the following buttons and information:

- Date And Time
- Notifications
- Account Info
- Recordings
- Settings
- Logout
- Live TV
- Movies
- Series
- Install EPG
- Multi-screen
- Catch up
- Subscription Expiration

Live TV

Enjoy 18,000+ Live TV channels online with Roomba TV in HD. Watch your favorite TV shows, news, and sports channels. To stream and watch a channel, tap on the desired channel category.
