1 iPlayTV Installation

1. Turn on your Apple TV, then launch the App Store.

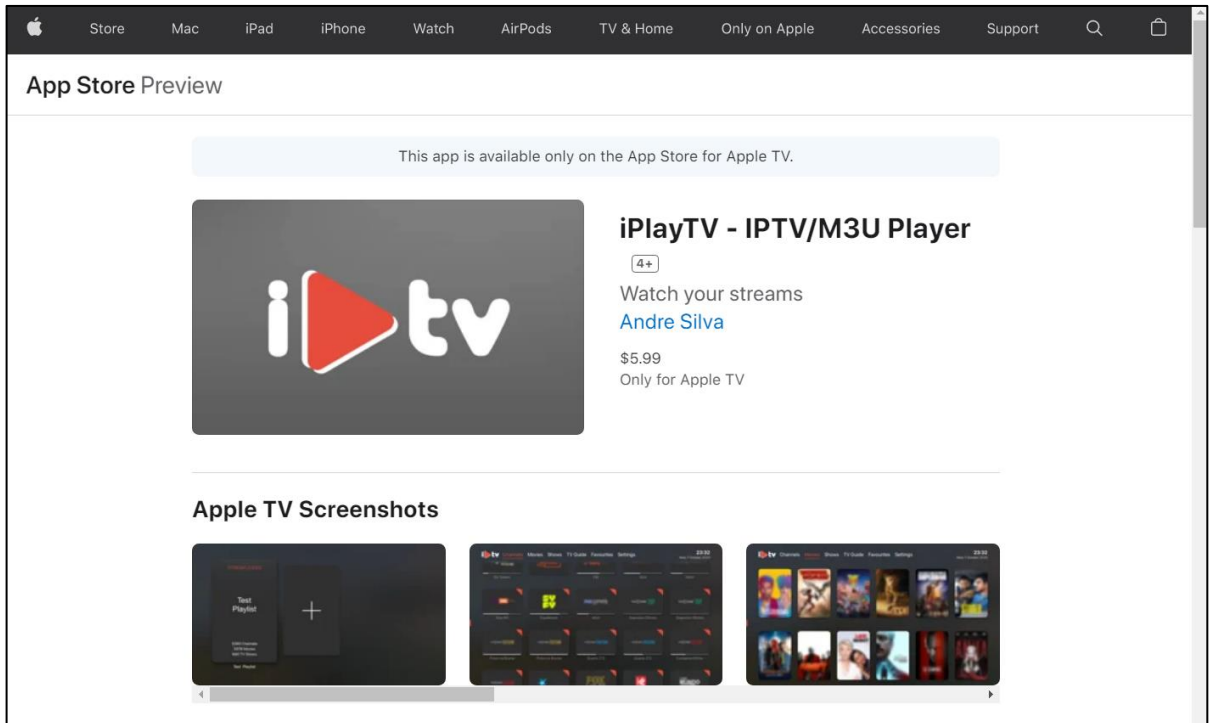

2. Go to the **Search** menu. Enter “iPlayTV” on the search bar, then hit **search**. When the iPlayTV app appears on the search result, select it then install the application.

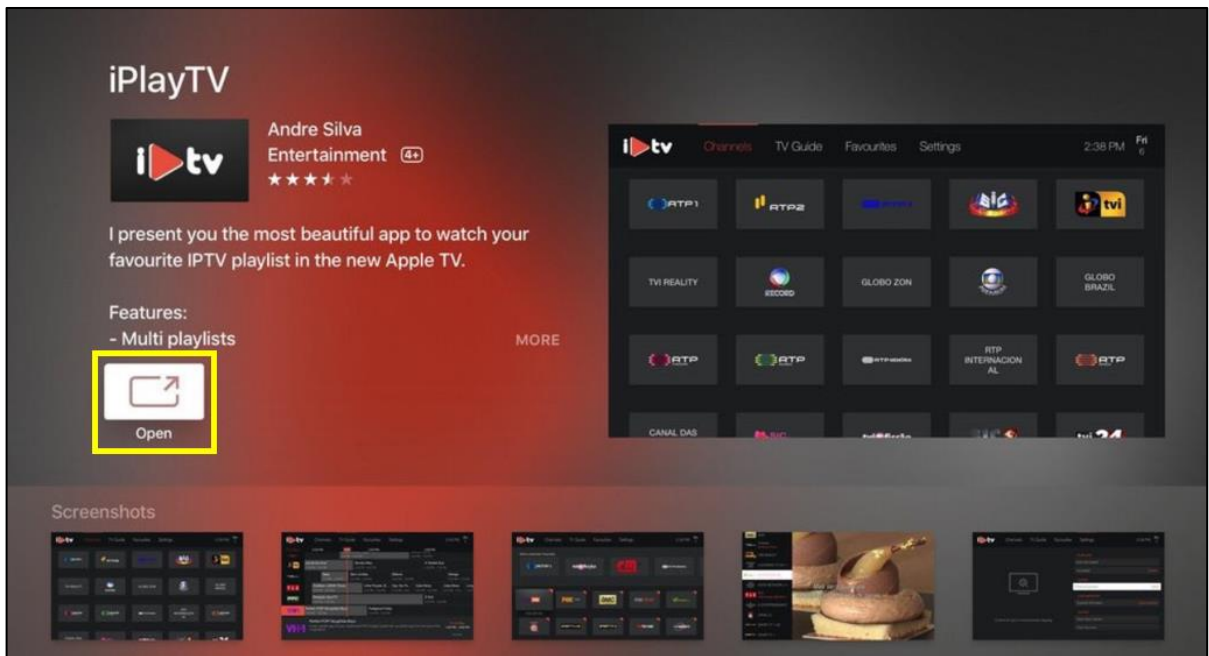

- Alternatively, you can go to a web browser then copy and search the following link:
<https://apps.apple.com/app/iplaytv/id1072226801>

This will redirect you to the App Store where you can purchase and install iPlayTV on your device.

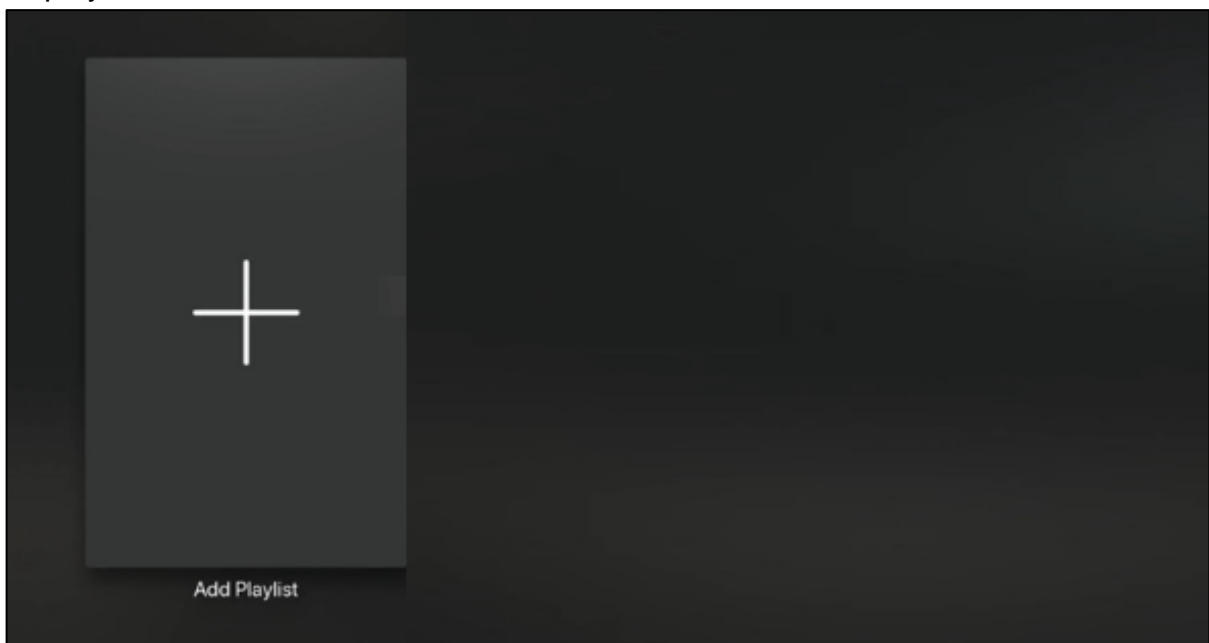

Note: As of this writing, the iPlayTV app costs \$5.99. The iPlayTV app is available for Apple TV 3rd gen or above.

4. After the installation process, click **Open** to launch the iPlayTV app.

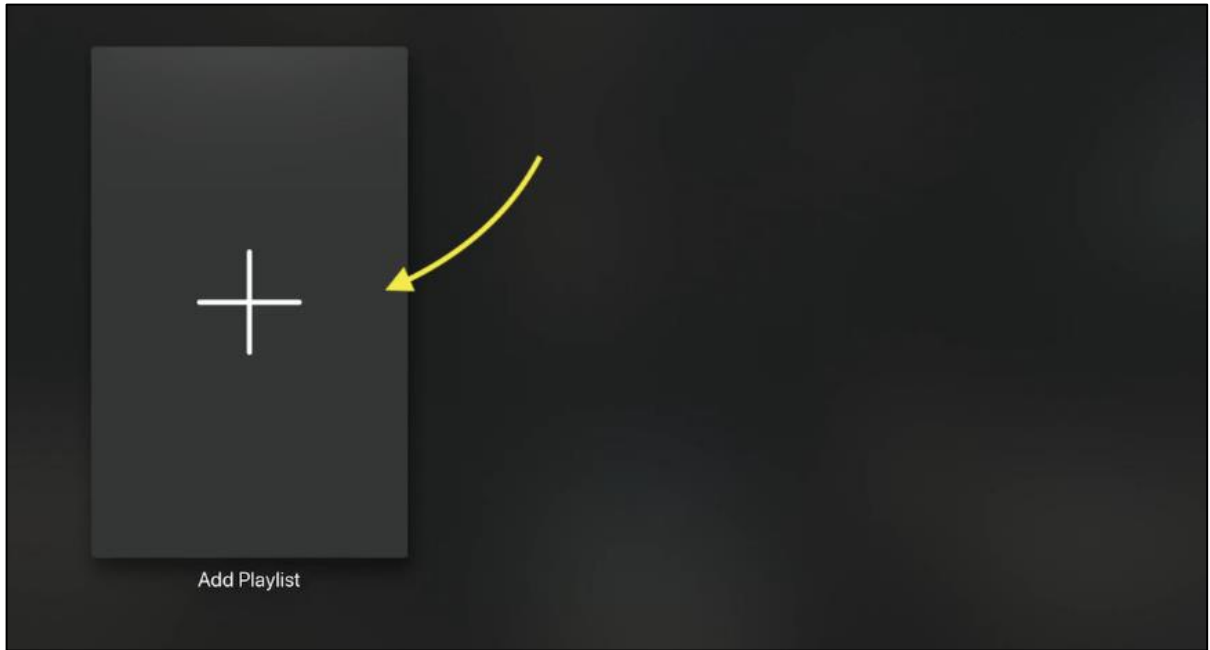

5. When you launch the app for the first time, the iPlayTV **Add Playlist** screen will be displayed.

2 Setting up IPTV Playlist

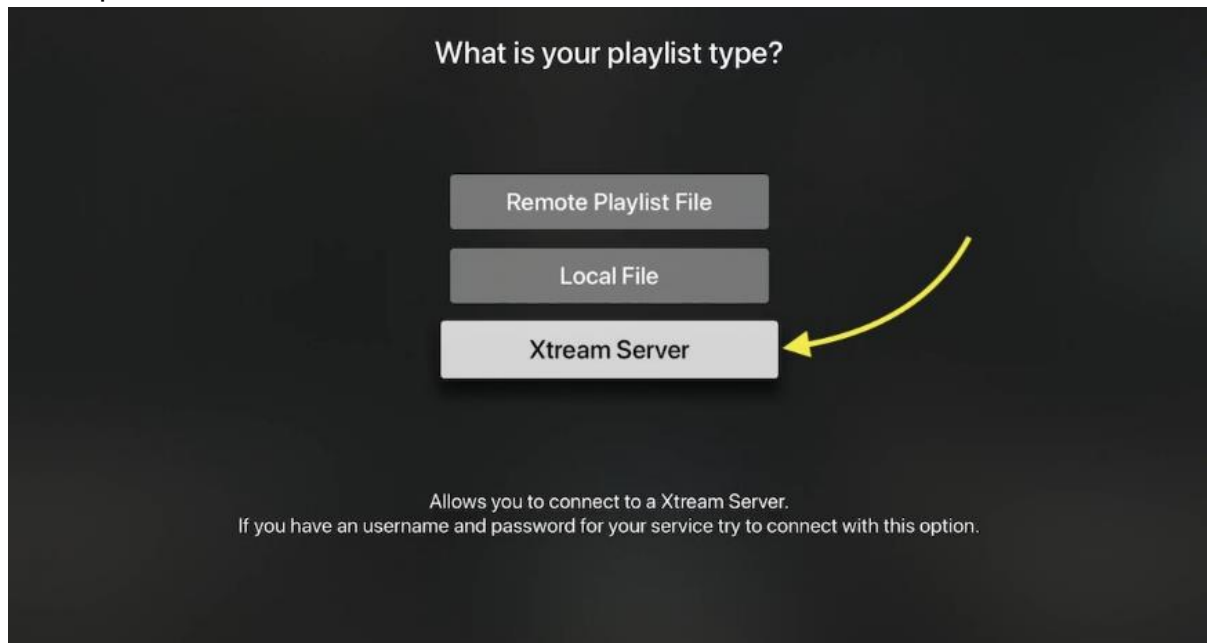

1. Click **Add Playlist** to set up your IPTV M3U playlist.

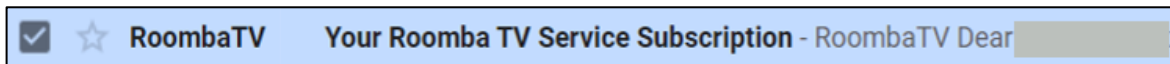

2. There are three (3) ways to add the IPTV M3U playlist:

- ▶ Remote Playlist File – allows you to configure the M3U playlist that is hosted in a remote server
- ▶ Local File – allows you to upload the M3U playlist to the iPlayTV app
- ▶ Xtream Server – allows you to connect to the Xtream Server by entering the login details given to you by the Roomba TV service provider

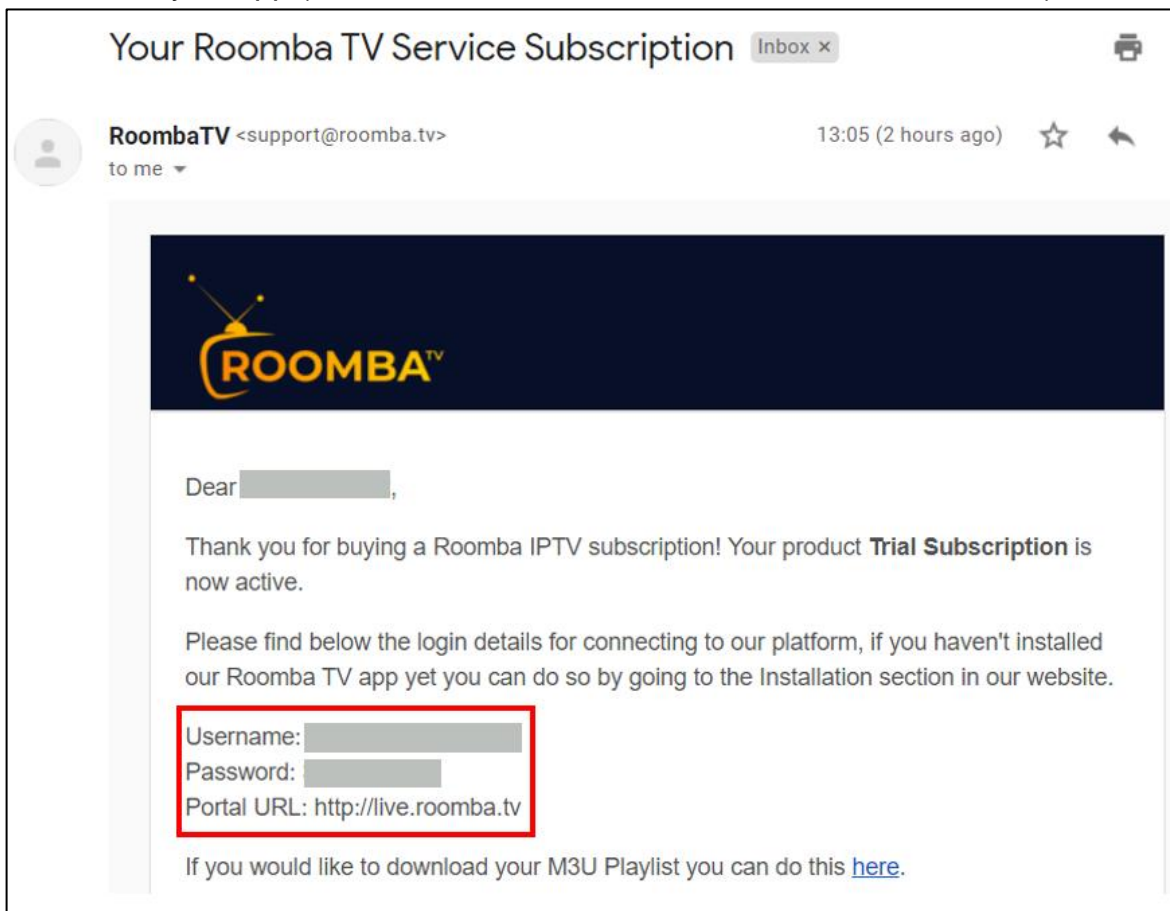

We highly advise you to choose **Xtream Server** playlist type as this option provides you with additional features such as Electronic Program Guide (EPG) and playlist auto-update.

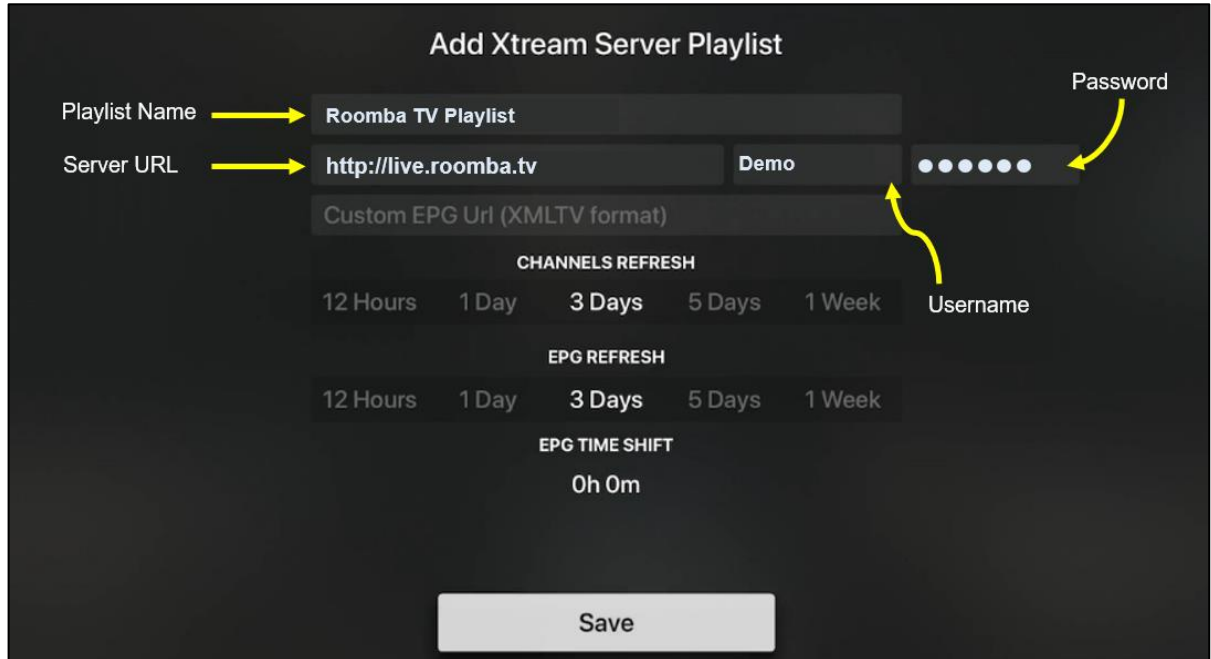

3. On a web browser, open your email service provider app, then check for the email with the subject “Your Roomba TV Service Subscription”.

4. Get the following details contained in the email which you will need to manually enter into the iPlayTV app (i.e., Username, Password and Portal or Server URL).

5. Fill in the following fields on the iPlayTV app using the credentials provided to you via email.
