1 Introduction

A MAG device is a set-up box that is used to stream IPTV service (e.g., Roomba TV). MAG devices include a built-in software that allows you to stream IPTV service without requiring to download any third-party apps such as the Android STB emulator.

All you will need is to ensure that your MAC address is registered to the Roomba TV server in order to install and stream Roomba TV service.

2 MAC Address Registration

To allow connection from your MAG device to the Roomba TV streaming service, we will require you to register your MAC address to the Roomba TV server.

1. You will find your dedicated MAC address underneath your MAG device as shown below:

Example of MAG device

2. On the Roomba TV order page, register your MAG device.

Roomba TV Portal order page

Additional Required Information

Select Product Type

MAG

MAG Address

00:1A:79:00:8

Format 00:1A:79:12:34:5A

Have questions? Contact our sales team for assistance. [Click here](#)

- a. Select **MAG** as the Product Type.
 - b. Enter your MAC Address on the MAG Address field.
 - c. Click **Select Bouquets** to select live channels and series within your subscription.
 - d. Click **Continue** to proceed.
3. Once you see the **Review & Checkout** page, click **Checkout** to proceed. You have now registered your MAG device within your subscription.

3 Roomba TV Installation

1. Turn on your MAG device, then go to **Settings**.

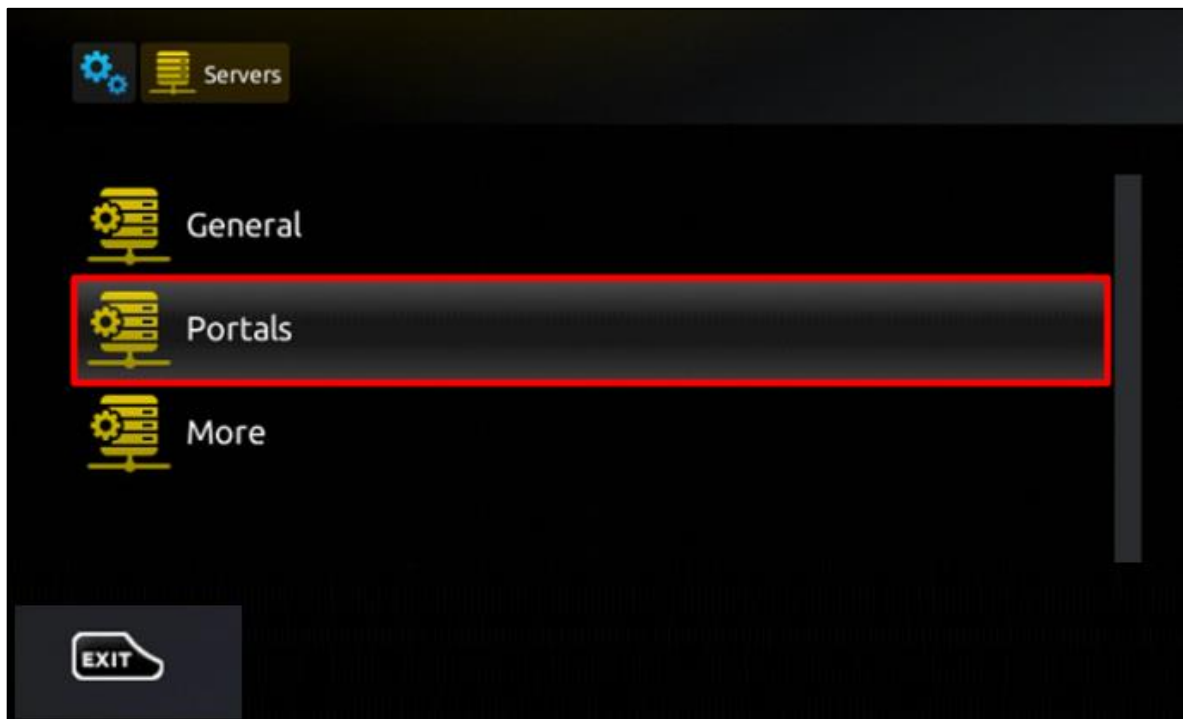

2. In the Settings menu, select **System settings**.

3. Under System settings, select **Servers**.

4. From the Servers menu, select **Portals**.

5. Fill in the following fields using the credentials provided to you via Roomba TV service provider.

The screenshot shows a configuration interface with a dark background. At the top, there are three menu items: a gear icon, 'Servers', and 'Portals' (which is highlighted). Below the menu, there are four input fields. The first field is labeled 'Portal 1 name' and contains the text 'Roomba TV'. The second field is labeled 'Portal 1 URL' and contains the text 'http://mag.roomba.tv/portalstb'. The third field is labeled 'Portal 2 name' and is empty. The fourth field is labeled 'Portal 2 URL' and is empty. At the bottom left, there is an 'EXIT' button. At the bottom right, there is an 'OK Save' button.

- Enter “Roomba TV” in the **Portal 1 name** field.
- Enter “http://mag.roomba.tv/portalstb” in the **Portal 1 URL** field.

After you have filled in the Portal fields, click **OK Save** to store the Portals settings.

You may now enjoy streaming Roomba TV channels, movies and series on your MAG device.
